TUESDAY

OCTOBER 4, 1938

Annual election of officers to day. The nominating committee presents its findings. Official ballots now are for the electors. Absentee ballots taboo. Polls open from 12-10 to 12-15 P.M. Beware of campaigning within 100 feet from the voting precinct. Spirited rivalry must bring no bloodshed. And he who would ask for a recount should be summarily fined and squelched. For time is the essence.

"The Story of the Standard Oil Company of California" will be told by a representative speaker from John Deere's oily enterprise. Bill Bray will have the gavel in hand. What will he hand out for an attendance prize? To be or not to be as bogus as his memorable venison (GOAT) food, ever of immortal fame.

To sojourn in the mountains - 7000 feet - that's real high life, excellent and exhilarating. Finally, Floyd, et al. surely brought home the evidences last week. Those pictures!!! Well, our group simply drunk in, absorbed, and relished those striking scenes. Rarely has this gang enjoyed a more satisfying treat. "Finned, Furred and Feathered" - just hints at what those pictures portrayed. And how our sports did capitalize on the set-up amongst the Trinity Alps! The jeweler, artist par excellence with the camera; the barrister, scintillating in oral observations. The twain should go on the road.

Hats! Hats! Hats! Hats! - just as thick as Carlsbad bats, Forty headgears! What a dower! The editor received the shower. All kinds of lids to him did flow: High silk top and French chapeau; Scarlet fez from Sciott's home; Hat that crowned the preacher's dome. In wondrous ways works the New Deal - we'll now have more hats to steal.

## OFFICIAL VISIT OF LIEUTENANT GOVERNOR, JUDGE HARRY W. FALK

This meeting will be Harry's very own. Everything and everybody else pales into insignificance when His Honor comes to town. Even the chairman Hick Cooley will be next to "floored" on this significant occasion.

Just what Judge Harry has up in his sleeve will be unfolded while he has the floor. On his way to Sonoma for the evening Division conference, our distinguished official will probably issue a Kiwanis decree that all who ought to make the trip to Sonoma Grove MUST GO.

Three representatives of the Standard Oil Company of California, by words and pictures, told the story of their big concern last week. Amongst them, Kiwanian Roy Milligan, product of the biggest-little university in New York and the whole wide world (and the editor vouches

Roy Henderson rejoins the fold to day. One or two more in his wake just can't stand the "disgrace" of being out any longer.

Election of officers amounted to a peaceful passtime. Best wishes to President-elect Harry. May your administration be as successful as the refreshing regime of Eddie Beeson.

Fifteenth anniversary of the birth of Healdsburg Kiwanis, November Third. Our sponsor, the Napa Club, is coming strong, orchestra, ladies together with distant charter members of our own. What a time ahead!

"RETAIL MERCHANDIZING" - FRIDAY THE 14TH ± HIGH SCHOOL  
CONTINUES FOR 12 WEEKS - MR. CLARK HALLAM - CONDUCTOR.

TUESDAY

OCTOBER 18, 1938

How would ye exceedingly adult Kiwanians like to be back in the class of 20-30 ? How sad, the spread between ! Even youthful antics at Shorty's party would fail to qualify.

A 20-30 club for Healdsburg ? Maybe. But we'll be out of the running - except that local Kiwanis may lend its kind offices to help put into revolution the wheels anxious to turn under the auspices of some encouraging group. We are due to hear about this to day, from Mr. Edw. Ryan and Mr. E. D. Zumwalt who come from abroad to press the button. All of which comes from Earl Adams, the chairman.

## CLUB ANNIVERSARY

None of us were so Kiwanis wise as not to learn much more from the talk of Harry Falk, Lieutenant Governor. A clear cut presentation of things International, with its many ramifications. The Judge made this his official visit, and what inquiries he did not make concerning our activities could be pasted on a postage stamp.

## NOVEMBER FIRST

Officers "Johnnie" and Harry represented us at the Sonoma Division conference, Oct. 11th, and helped nominate Earl Crawford of the Napa club for new Lieutenant Governor. "Buck" should make a dandy.

## EVENING MEET

An open confession: The editor stood in the batter's sanctum. Two strikes, and not even a highball. What a state of jitters ! 'Twas then and there, while swinging, he proclaimed to his league team that the club anniversary celebration was due for November Third. Just at the moment of issuing his now well misunderstood and infamous proclamation he fouled right into the watchful mit of President-elect Harry Latimer, who forthwith called him down and out - as a bum reporter. Next time, while posing in the publicity box, give him a base on balls.

TUESDAY

OCTOBER 25, 1938

Chairman to day : Joe Cox, who never calls a spade a pitchfork, who speaks in unmistakable language, whether as Chairman of the Board of Supervisors or out on the frotier, and who, when presenting to day's speaker, Doctor Sooy, will probably call him "Joe".

Shall we hear more about ~~the~~ infantile paralysis, and the curative powers of the waters up at the Geysers ? This we shall learn when the enterprising medic has the floor. This a subject which strikes near to our own homes.

If the 20-30 club movement in this city does not materialize it will not spell indifference or want of encouragement by Kiwanis. Our attitude was apparent enough last week when representatives of the junior organizations elsewhere felt us out. Good for our community, good for ourselves, we're for it.

On this Twenty Third of October, as these lines are typed, Governor Fred Ewing celebrates a birthday. We wish for our stocky sterling standard bearer all happiness and many an enjoyable anniversary day for the future. Like a host of other Kiwanis clubs we wire Governor Fred accordingly. Fred, Healdsburg Kiwanians have not forgotten your consideration in coming to our Division meeting last spring, together with your good "governess". And "Kisti", this goes for you as well.

"On to Santa Monica", the watchword for this week. At least one, possibly two of us will be there - the big District Convention.

One week from this Tuesday night, our anniversary meeting. Napa is coming to give us the works all over again. Thirty letters have gone out inviting charter members, scattered here and there.
