"Public Health Resulting From War" was interestingly considered last week by Dr. Barnett. A substantial talk mixed with pleasantries. Miss Bette Carrison demonstrated her delightful voice, accompanied by our own Elmer Sandborn.

DR. THOMAS B. DUNN
to day

"LIFE IN JAPANESE PRISON CAMP"

The speaker and family recently arrived home on the Gripsholm

We should enjoy his story

Chairman, Elmer Sandborn

O Ye Directors, Hark: Wednesday morning at 7-30 meeting at Lytton Home, guests of Alf. Sander. Some grand gesture, don't ye think? Alright. Plan for riding thither.

Governor Russ on the go these days (and nights). Presidents' conference, Los Angeles; speaker before Benicia club; addressing club at Richmond; Pres. Conference (for the north) Berkeley - all in one week!

Attendance getting back to the old Healdsburg standard - largely due Harold Miller, the "hard boiled". Who said some committee chairman do not function?

Baby Kiwanian Hardy Bell says that fine fell far short of representing the value of his new baby girl. Unlike some, Hardy "rung the bell".

Achievement Report is on its way. Bet 10 cents we get the booby.

2/8/44

As per announcement by Chairman Charlie Comstock:

Speaker - Rev. Graydon McClellan.

Subject - "George Washington Carver, America In Color".

The story of the man who alone justified Lincoln's freeing the slave. He was the Negroe's Edison, Burbank and St. Francis, all rolled into one. (Specialty: Richard Wilcox, 5 minutes on Lincoln.)

Elmer made a scoop in bringing to us last week Dr. Thomas Dunn as guest speaker. What experiences those internees had at Japanese hands! The Doctor should know for he was one of them. And he gave it to us stock, breech & barrell. You get it first hand and first class at Kiwanis.

That was a full house, Tuesday. Every chair taken. Instead of being on his toes, as usual, Tardy Floyd nearly had to sit on the floor! Ten distinguished guests present. See "you all" to day.

Alf. Sander says that directors' meeting at Lytton holds good for this Wednesday, 7-30 A.M. All aboard for BIG BREAKFAST.

HOME FRONT ACTIVITIES. Should we not stress efforts in this direction, more or less to the exclusion of ^{other} objectives during this (possibly) last year of the war? We think this affords best opportunity to justify our existence. Why not make the most of it while OUR Governor is at the helm? Won't make Russ mad.

2/15/44

We heard George Washington Carver (colored) extolled to the superstratum last week by Rev. Graydon McClellan. Next to Booker Washington this man was eminently worthy of his Americanism. Delightful address.

Speaker: "Jimmie" Bresnahan
of the
Federal Bureau of Investigation
in selective talk
Some Swell Irishman
Chairman, Francis Passalacqua

A most enjoyable breakfast meeting of the directors at Lytton Home last Wednesday, with Alf. Sander as host. No doubt President Neil will have one member report on the function at this meeting.

* * * * *

Our newest exchange: An elaborate and neat weekly bulletin from the Huntington Park Kiwanis Club, by name, "Kiwanscript". Many thanks to Arthur E. Paine, editor, and to Governor Russ for promoting same. Yes, "Art", you'll get ours - such as it is - via courtesy route.

* * * * *

Because of his jurisdictional transfer, still in the County, we surely hope not to lose our "Sugar" as member and song leader. It would be sad indeed.

* * * * *

Albert G. "Old Ironsides" is putting up a game fight. Snapper-out-of-it Harold R. is able to catch steelheads and attend meetings. Harold M. go-getter guy, is in the East on business. Hope he thaws out, returning.

No mediocre programs these days, thanks to up & coming chairmen and committee.

I.B.I. "Jimmie" Bresnahan was was charged with plenty firey amunition, and did he shoot ? No wonder the criminal finds his way into the gill net, having such detectives as Hoover, Bresnahan et al.

SGT. JAMES W. REYNOLDS survivor with Rickenbacker on that ill-feted "voyage" in the South Seas for 21 days - He'll tell us his thrilling story this Tuesday noon.

Famous bard, Bert Wheeler will sing, as Bert can do.

Chairman Floyd Darby is credited with featuring this fine program. Other clubs present.

GEORGE WASHINGTON. Surely we won't omit to pay a word of reverence to the memory of this great man this significant day, February 22nd.

Another 95 % meeting. Nice tribute to Governor Rasm and to the club.

Excerpt from THE BUILDER, 13 Yrs. ago:

"ADMONITION:

"Put something in your letter about so many leaving meeting before the end." Said the editor: "THIS ORDER FROM THE COURT is here and now solemnly served, that he who eats and runs away may suffer pain some nearby day. President Floyd, in all his wrath, is about to pose as prosecuter and judge alike. Come early and stay put, says Floyd. Otherwise, CONTEMPT of COURT." Same holds for 1944, says Pres. Neil. Well, here's the self same "Squire" leading the exercises, in classic grey, yet after those 13 years, vigorous, dynamic, colorful.
