APRIL

FOOL

DAY

1941

Speaker to Day: Mr. Fred V. Williams, foreign correspondent to the Tokyo Times.

Subject: Japanese Reaction at Home to American Policies.

Chairman: Harold Miller.

And we hear that Harold's son, "Bud", will tickle the piano ivories; also, that Owen is promoting additional music - by the High School orchestra.

As the speaker asks for 45 minutes, time must be economized.

Ours is a club, proud of its singing in by-gone days. But Alas! To day, how all has changed! Yet, one song alone, God Bless America, survives - unscathed. In excellent leader, and pianist, are helpless under the present system.

Be looking forward to Kiwanis functions in month of May. Particulars later on.

Nine of our able bodied men rolled the Log of Friendship down to Santa Rosa last week. Nice turnout.

Here's something! Al. Huddart furnishes the prunes for Directors' breakfast this Thursday morning, at Buffi's - 7-30. We'll sure fill up on the Huddart Special.

What a treat last week! With signal grace and fluency did Prof. Chas. E. Meniger account for the building of our Nation's Capital. And Clair Schwab, High School student, was excellent in "Let's Keep The Faith." Altogether, a fine program - with some brands of vocal diarrhoea in the guise of music thrown in.

As Lt. Governor, Russ debuted in his maiden speech last week at Sonoma; another at Napa. Two decided hits. We know, for some of us listened in.

Question to day: Who said, "I regret that I have but one life to give for my country."

THE BUILDER SPEAKS:

"Here I come, fresh from the press,
In this 'nifty' two-tone dress.
And if you like my newest style
Say it with a gladsome smile.
Then, you may often take a peek,
For I will call around each week".

That swing orchestra and "Bud" Miller were jake last week.

Speaker to day: Lieutenant Commander James Todd.

Subject: "Selective Service" - Chairman: Art Meese.

Good programs these days
Mr. Fred V. Williams, with
evident penchant, or ad-
miration for things Jap-
anese, was an interest-
ing and informative lect-
urer last week. He dis-
agreed with America's
sympathy and support for
China, which, allegedly,
swung Japan into the Ax-
is.

In this time of inter-
national strife we wel-
come messages from over
the waves, and we trust
the element of propogan-
da may never be employ-
ed.

A few of the same members still
seem to be minus attendance con-
sciousness, and in a marked degree.
Time has come when International
rules governing attendance reas-
onably must be enforced. Two or
three of our group are absent
more often than present. Next
week it may be incumbent on the
Secretary to do a certain pain-
ful duty. We hope not.

A glance at the calendar:

- Apr. 29, We lunch at the High School,
observing Public Schools
Week.
- May 5, Benicia Birthday Party.
- May 4, A certain pleasant time!
- May 7, Joint meeting with Santa
Rosa club, in Healdsburg,
featuring our District Gov-
ernor, Bill Schaper.
- May 10, Excursion to Eureka, for
Division Meet.

Would you like Art's drug store
Prize? Then, WHY IS AN OYSTER ?

Where Russian River and Redwood Highway meet

SPEAKER

MR. J. C. ARMSTRONG

SUBJECT

NATIONAL DEFENSE

CHAIRMAN

TED KELLOGG

"Selective Service" went over in a big way last week, as handled by Lieutenant Commander James Todd, that questionnaire making for exceptional interest.

Well, it now looks like our trek to Eureka, May 10, will be a glorified reminder of that never-to-be-forgotten excursion to "Frisco" a few years ago. Candidates for the bus ride are increasing as the square of the distance to the Division meeting city.

God's glorious sunshine this Saturday morn presages a heavenly Easter Sunday - The Builder's wish.

To Fred Young and Hazel: "Long time no see" Been a-wearin' for you. Awfully welcome.

District Committee on Public Affairs is very much alive at present. RELIEF, STATE PRISON ADMINISTRATION, YOUTH CORRECTION, INITIATIVE - all being treated in "Bulletin No. 1", now in the hands of the Secretary, and for local committee's consideration.

"A certain pleasant time" for May 4, develops now into an out door at home for us and ours, and for Governor Bill and his "Ann-ette". Some hospitality for, or by, Lieutenant and Lady "Steve".

DO UNTO OTHERS - the spirit of Kiwanis. Our club IS doing its very dernd'st for a fine young American, in difficulty just now.

By Lt. Governor Russ, another official visit, and still another, - Benicia and Vallejo - and a speech with every party! Verily, we say unto you, - a Demosthenes in the making.

WHEN IS A MEMBER AUTOMATICALLY OUT?

CAPTAIN HARRY GLODZIKER AND OFFICER MELVIN SCOTT OF THE HIGHWAY PATROL WILL PRESENT SAFETY PICTURES ON DRIVING FOR OUR INTEREST AND EDUCATION. AND AS FOR CHAIRMAN, ONE ROLLYING "ROLLO" NORTON, BY NAME.

As for any singing - well, perhaps the least said the better, until we cease to make a mockery of those good old melodies once sung by this group in hamony and with pride.

At this critical juncture the defensavely squaring ourselves for what may be ahead assumed a wide scope of activities at home,- this according to that eloquent address by Mr.J.C. Armstrong last week. Such an address sets us a-thinking and a-doing.

"Propaganda" on the Fair to be held at Lytton Home, May 24th, is getting to be pretty convincing that a surprising doings is in the offing. "Stew"Kelse seems to be the proper propagandist performer in harness.

He who cops the attendance prize to day must give correct answer to:
WHAT'S THE DIFFERENCE
BETWEEN A KIWANIS DISTRICT AND A DIVISION ?

C'mon, you committees, more action before our next monthly report.

DO YOU KNOW that this is what we are ? "A Kiwanis club is a community forum before which great leaders are to appear, knowing they will be received by an appreciative, understanding and intelligent audience."

Lieutenant Governor Russ still on the frontier, last week commingling with the northern clubs

Sorry to have to begin dropping a member or two for non-attendance.

All hands lunch at the High School next Tuesday, observing Public Schools Week. FORGET THIS NOT. Forget Legion Hall.

The coming of Governor Bill and Kiwani-Ann in May foretells some pleasant associations for us all.

May Ten! Eureka, or BUST! Forty Kiwanis hefties may bust a Greyhound spring; but FIVE BUCKS won't bust the bank of any excursion-mad man, nor bust up this SPECTACULAR trek. The "management" (Walt Marshall) wants the coin on the counter purty D.Q. to clinch and cinch the deal. So, dig down, tourists, and stick the long green under Walt's nose IMMEDIATELY. It's the only missing prop to bolster up the Greyhound spinal column.

Plain to be seen, subscriber, this a SPECIAL ISSUE, gotten out and put into your hands way ahead of time, that you may know your duty and do it NOW.

So much depends on hurry-up financial action that the subject in hand assumes precedence over nearly any and every thing else usually touched on in the weekly bulletin.

Every club in this southern section will have its excursionists in that thar' Greyhound vehicle of pleasure. Twenty odd Healdsburgites will fill the waiting seats. Whereupon, that honk, or bark of the "hound" will signalize departure of the most wildly enthusiastic gang that ever walked the gangplank on any voyage ever!!! We'll be thar' - Eureka, we'll be thar'.

Now, that the outshining importance of the time has been stressed, no harm in stating that we meet and lunch at Paul Crabb's bailliwick (High School) this Tuesday, Apr. 29th. Public Schools Week program. WHO'S ROE FULKERSON?

"Kiwanis can sway or control the children of the coming generations" - which reminds us of our Boys & Girls Committee seriously looking out for the youths of Healdsburg.
