Just can't bust that trust - the lumber trust of Healdsburg, as it seems. For who'd you think as the chairman to day? That other half of ~~of~~ corporation in restraint of trade - Len Gilbert. Ostensibly business enemies; truthfully, a confederate pair beating any ~~these~~ of a kind! Something must be done.

All Joe O'Ferrall had to do last week was to unload a startling dissertation on narcotics of the nerve-killing ~~ex~~ kind. And what a hunk of knowledge Joe has on this "branch of industry"! One of the finest talks ever. By the way, what crazy Irishman was responsible for the badly twisted spelling of his name? St. Patrick never intended it should be so.

Santa Rosa Club holds dinner meeting at Mark West Springs resort this Thursday Eve., 7-30. Wouldn't it be just alright for one carload of our fellows to bust in on 'em? Who's got gas? Talk it up, ye sports. There'll be no dull moments then & there.

Salute the Governor. For this day will bring for us a man of "credit & renown"- no stranger in our midst, none but Russ Stevens, Cal-Nev prexy, who will address his home folk on some topic of his own selection.

Now he who dares to stay away Must later be prepared to pay.

Like Apostle Paul, Russ has been journeying up and down the land preaching his gospel, not that of the Bible exactly, but the next best thing, - Kiwanis. He has converted a flock of luke-warmers into hundred percenters on his missionary rounds.

And speaking of 100%, please be advised that Healdsburg has another, her fourth, month of a perfect score. A little tough - says Harold M - to get the last absentee to "make up" - but it worked. Looks like another free dinner in the offing, Ain't it?

Don't forget to place your Ad for next issue. It pays returns.

WHEREAS, our pinch hitters published a "Republican Issue" last week, during our week of weakness, elephant and all, therefore be it RESOLVED, that this number of The Builder be dubbed - -

DEMOCRATIC ISSUE

Frank kicks Tom clear off the Republican stage on November Seventh. What a "tired old man" !!!

Non Political Section

Return engagement. Lt. Robert Dark, concert pianist, together with Mr. Jim Kenny, "Irish Thrush", and perhaps other music supplementers are due to thrill us to day. Some program, this. As for chairman, none other than the doctors' mistakes cover-upper, Ern. Frandsen.

For the purpose of the record, and to credit the gentleman with due recognition for a fine talk, Governor Russ on Aug. 1st recited some of Kiwanis activities during the war; also, our opportunities for post battle service. Credit, too, the stunt committee who provided the speaker and his "accomplice" Len Gilbert, chairman, with that appropriate saw mill setting - even to the toilet paper belt to run the works.

We understand Mr. Adrian Pitto, last week, did full justice to the subject of distilled liquors - A few trained experts in our gang.

Once again those ivories took a beating at the fingers of Et. Robert Dark. And once again we were thrilled by this artist par excellence.

And those Irish songs by Jim Kenny! Thanks, Chairman Ern.

"MIRACLES OF TO-MORROW"
to be considered this day by
MR. C. FRANK PRATT

We understand this will have to do with post war activities and should command our serious attention (and silence too).
Don Oakleaf, Chairman.

Once again, a gentle reminder on courtesy to the performers. Last week's entertainment was so exceptional that we should be immune against audible "talking conferences" by non-listeners. What ye say?

Summerschoolers, Neil and "By" - president and vice, respectively, individually and collectively, - yes, we have sorely missed 'em. Byron is back on the job and Neil will be with us hereafter. Made up? You bet.

Once again (three times in succession) we suggest that the easiest way to "make up" is not to be absent from the meetings. While the boys are pretty good attending committee meetings it, nevertheless is often inconvenient. Our programs are too interesting to miss these days, thanks to the chairmen & program Com.

Seems to us it's pretty bad
When a firm won't place an "Ad"
Like the rich P G & E
When it costs but a small fee.
A man who's business-like & wise
Should in The Builder advertise.
Now, in the case of Jonny M
We suggest to set back him
For six bits, or maybe more,
Now, Johnny Morgan, don't get sore.
'Twill make yourself a lot of friends
And pay your firm BIG dividends.

"Objectives for a good citizen" - title of to day's subject.
Speaker, Mr. Riley W. Doe, District Manager, Safeway Stores.
Chairman, Earl Osborn.

Then, too, we are to hear the musical voice of Milo Badger,
local boy, in a group of songs.

We hope some of the prophesies of Mr. C. Frank Pratt will be
fulfilled - after the war. Pleasant to contemplate such a
New Order as was foretold last week. A good address.

Time for Gabriel - we mean Neil, the president, to appoint
the nominating committee, looking forward to the election
of officers for '45.

Also, time to formally select delegates to the district
convention in October. "Kisti" is calling for such action.

Owen meant perfectly well last Tuesday, but to expect any
Republicans to rehearse a Democratic song - well, it sort
o' gummed up the works, didn't it? Nice program number!

Guess our president will be back on the job to day. In his
absence Vice-pres. Byron didn't seem to need much rehearsing
for head table purposes next year.

This Saturday P.M. is so hot, 104, we fear this inflammable
stencil may ignite. So, Au revoir, till things cool down.
