On the **subject** of developments in the **best** sugar industry in California **Mr. Ronald B. Hayes** was **forceful, enlightening and withal, a man to sit down and listen to.**

Compliments to Chas. Comstock for featuring fine program.

Subject :

"Present Conditions in Mexico"

Speaker :

Senor Jorge Comancho Cardenas

Chairman :

Ira Rosenberg

Kiwanis **sociability**. It was demonstrated ^{day} Saturday last, when club members plus a few **friends** participated in a sumptuous, delectable barbecue feed - in Russ Stevens' "back yard" - a pleasure ground of the inviting kind. While Russ furnished the setting, Pres. Finnly was the chief inspiration, Roy Haley, the barbecuing artist, and Al. Huddart plus Hollis Holbrook the waiters.

At this fraternizing function there was swimming, and how!!&! in that finest of all pools in Northern California. ~~feasting~~, subdued "sound of revelry by night" - and day; and who said libations were entirely overlooked? Certainly not the editor. A not-to-be forgotten event.

One month hence, and Healdsburg's delegation will be in Santa Cruz - for the Dist. Convention. Our club must keep its place on the Kiwanis map.

Welcome to our most recent acquisition - Ernie Frandsen; and this goes for Sargent Hoffman too, an esteemed member of two weeks vintage. Directors meet this Wednesday morning, 7-30. Don't forget.

"Things Going On To-Day" - The General Petroleum Company will entertain us by picturing those very things, occurrences of great moment to the whole world. Neil Parsons, Chairman.

Our thoughts migrated into Old Mexico last time, via the interesting discourse by the National, Jorge C. Cardenas, he of Spanish tongue and training. His theme, supplemented by a "breaking of the ice" by Miss Bertha Vranna, together with questions responsively answered, made for a nice program.

Kiwanis slogan this week - BUY BONDS. Well, our directors last week, for the club, started the ball rolling with 100 Victory purchasing "bucks". Which is the next organization?

Nice letter from Fred Zimmerman. Our pleasure to give him a fitting build-up to the Alameda club.

Congratulations to Owen Sweeten - a lucrative County assignment.

Speaking of those Victory Bonds - here's why the quarter of million will be subscribed: Our Ira Roennberg, general chairman; our Elmer Sandborn, Am. Legion Commander, personally leading the drive; these, with Elmer's host of solicitors - how can Healdsburg fail?

But, like politics, never sure until the returns are all in. We know there's many a slip-up between the flip-up and the tip-up.

Tho' in picture, last week, Raymonf Gram Swing was the real speaker - featured by General Petroleum. Mr. Swing swung into his war subject in his very own analytical and impressive style.

From Booker T. Washington Center comes to day -

MR. ROBERT SHIPPEE, speaking on the racial question. Color, presumably, will be the escence.

A. L. SANDER, CHMN.

Elmer fired the first gun in the battle for the bonds. Yet, it will hardly be a battle in this town. Healdsburg, as usual, will maintain her place in the sun in going over the top, we feel certain. And our club is sure to measure up to past patriotic performances. Good talk, Elmer.

From far up in the Aleutions down to deep in the heart of Texas - recent transition for Capt. Emerson Meyer, "Em" as we knew him in our club. The "Doc" was meeting members of the Old Guard here during the week. Glad to see you once more, Em, and hope you'll thaw out in Tex.

15 - 20 ! Whoever heard of French prunes at such size ? Yet, Darby bid in that 10 lb box at THREE & SIXTY ONE HUNDRETHS DOLLARS! "Sold", shouted the auctioneer. And What A Man was sold too, down the river, to the tune of such fabulous price, boosting the price of the product, contributing to the Charity Fund; but not thinking he'd be stuck on the deal. Moral: Believe not what you see; don't buy a pig in the bag; Open the box next time.

EDUTIES & RESPONSIBILITIES OF WOMEN'S ARMY CORPS"

Subject to be discussed to day by -

LIEUTENANT KATHERINE I. WHELAN

John Morgan, Chmn.

Absentees are missing excellent programs these days. World War doesn't appear to militate against our procuring good talent for weekly meetings. The racial question, as treated by a "gentleman of color" - Mr. Robert Shippef - last week was right up to standard. When more consideration is given to 14,500,000 negroes in America, then, "Democracy Incomplete" will be improved, intimated the speaker.

Election of officers, next meeting. Select your favorites in advance, if you will. But here's the slate as suggested by the nominating committee:

President, Neil Parsons; Vice-president, Huddart, Wehr, Gibbs; Treasurer, Hall; Directors, Cooley, Darby, Gilbert, Haley, Mann, Latimer, Morgan, Passalacqua, Price, Sander, Schwab. Select 7.

We are democratic, like all good democrats are; so you can scrap the whole above named bunch if you like and write in names of your own pals, incidentally refusing to accept dictatorship in our club! Contrariwise, we have no dictators in U.S.A., nor in Healdsburg. Guess the committee on nominations know their stuff after all. The Builder is for 'em. Like Brutus - they're honorable men.
